

Part-time, fixed-term (200 hours, spread over 22 weeks) Research Assistant. They will work alongside a postdoctoral researcher on a project investigating racial discrimination in the labour market for professional footballers in the UK. The post holder will be involved in both the statistical analysis and the write-up of the research project. They will hold or be pursuing a graduate degree in a quantitative social science discipline and have excellent analytical and statistical skills.

Requirements:

- *Hold a Bachelor's degree in quantitative social science (e.g. economics, statistics, political science, sociology)*
- *Completed or pursuing a graduate degree (e.g. MSc, MPhil) in quantitative social science*
- *Experience with data cleaning, merging and statistical analysis using R, Python, or STATA*
- *Strong statistical analysis skills and experience with standard graduate econometrics content (e.g. fixed-effects models, propensity score matching)*
- *Good written and oral communication skills in English*
- *Unfortunately, given the nature of the funding, I cannot hire someone on a student visa unless they are a student at the University of Kent*

Applicants should include a CV, a short cover letter, and the names and email details of 2 referees who may be contacted if shortlisted. Please email Joel Kariel at J.Kariel@kent.ac.uk for further enquires.

Please send me your application by midnight (UK time) 25th September 2022.
